<https://www.gvsu.edu/mathinaction/>

and click on *Call for Presenters*

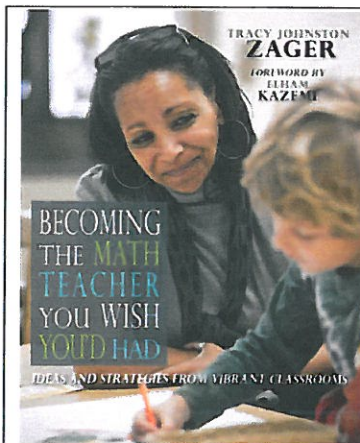

Proposals must be submitted by

Monday, October 3, 2016.

Proposal form is available NOW.

Interested in Attending Math in Action?

Math in Action presents lively and informative discussions of current issues in mathematics education while providing an opportunity for practicing PreK – 12 teachers, prospective teachers, curriculum directors, and college and university faculty to share ideas, concerns, and resources. SCECH credits are available for most sessions. The conference consists of six hour-long sessions with approximately eight separate interactive presentations during each session. Presentations are focused on specific mathematics topics at a variety of grade levels.

The keynote speaker for Math in Action 2017 will be Tracy Zager. Tracy's new book *Becoming the Math Teacher you Wish You'd Had: Ideas and Strategies from Vibrant Classrooms* will be on sale at the conference.

Tracy, a former 4th grade teacher, is currently an editor of math and science professional books for Stenhouse Publishers and works with schools as a math coach/consultant. She's happiest when she is in classrooms, learning together with teachers and students over time, and she hopes to return to full-time teaching someday. In fourth grade, of course.

For more information about the conference go to: <http://www.gvsu.edu/mathinaction>. Conference registration will be available in late fall.
